

## Marine Diving Technologies

Selected Student: Emma Horanic

Submitted by: Geoff Thielst

Emma is not only a very good student but a talented diver as well. She has demonstrated great skill in developing the competencies required to be successful in our discipline. Emma has volunteered countless hours to tutor classmates requiring additional assistance in their studies. Emma has additionally volunteered in the laboratory environment as she is a SCUBA instructor and possesses a scientific divers certification.

### Emma's Words of Gratitude:

I am incredibly honored by this award and grateful to my nominators for recognizing my efforts and dedication to the MDT program. But outstanding students are only outstanding because they have instructors who constantly challenge them and push them to do their best. I want to thank my instructors Geoff Thielst, Dan Vasey, Larissa Ormonde, Curt Wiessner and administrative assistant, Judy Lough, for their unparalleled guidance, endless support, and remarkable (and I mean remarkable) patience. This program would not have the reputation it does without them. Thank you again for this esteemed distinction.
